RE: Schedule for Review of Materials Previously Submitted for GATX – Linnton Terminal

Dear Mr. Conard:

The June 21, 2000 transmittal letter to Tom Lindley stated that the first deliverable for the GATX – Linnton Terminal was due July 20, 2000. As we previously agreed, documentation of the recent investigation received after the site screening was completed by the Department's Site Assessment Section should be reviewed prior to determining the next step in the investigation of the site. This review will begin shortly and a schedule for the next deliverable will be established upon completion of the review. I anticipate that review by the Project Team will be completed in the next two to four weeks.

If you have any questions, please do not hesitate to contact me at (503) 229-5492.

Sincerely,

Don J. Pettit, R.G.  
Project Manager  
Portland Harbor and Voluntary Cleanup Section
